To the Trade:

We have on hand ready for immediate shipment (or we can hold until Spring) the following grades of Apple and Pear Seedlings.

Apple Seedlings, No.1, 3/16 and all up, straight roots....\$12.00 per M
Apple Seedlings, No.1, 3/16 and all up, branched roots.... 12.00 per M
Apple Seedlings, No.2, 2½ to 3½/16, Straight roots 6.00 per M
These No. 2 are fine stocks for grafting.

Apple Seedlings, special grade 3/16 and up 8.00 per M
This special grade is not long enough for No. 1 straight nor branched enough for No. 1 branched. It is a fine heavy grade for whole root grafts or for planting out to bud.

Our Apple Seedlings are all from French Crab seed. They are clean, strong, thrifty one year stocks of the very highest grade.

REMEMBER--

The above stocks are all of our own growing. We personally oversee the handling and packing. We have no two-year stocks, no storage stocks, just the very best kind of thrifty, clean, high grade, one-year stocks that we ever saw grown. We grow Apple and Pear stocks exclusively—it has been our business for thirty years, and we know the business. We feel safe in promising our customers perfect satisfaction with our roots, both as to the grades and mode of handling.

APPLE ROOT GRAFTS

(Ready to plant)

Piece root grafts are made by using about six inches of cion and four inches of root. They are tongued together and securely wrapped at the union, with waxed thread, making the entire graft about nine inches long.

	1000 to 5000	5000 up
Piece Root Grafts (six-inch cion-four inch root)...	\$10.00	\$8.00
Whole Root Grafts (five-inch cion with whole root).	14.00	12.00

Grafts are tied 100 of a variety in a bunch, we do not sell less than 100 of a variety at above prices. Terms on Grafts are 1/4 of amount with order, balance upon delivery. Grafts must go by express to insure best results. Most of our cions come from bearing orchards in Colorado. Where parties wish to furnish their own cions, we will make special discount on grafts.
